COMPANY AND PRODUCT INTRODUCTION

www.ehisoft.co.kr

Greeting

EHI seeks to build a human-centered Internet of Things for people to enjoy more comfortably and safely.

To achieve this goal, members of EHI approach the ICT industry with three kinds of passion

First, the pride in creating new things with technology
Second, formation with customers
Third, creating through continuous quality innovation

Based on this pride, trust, and impression, we will focus on making a human-centered IoT service with creative ideas and all our passion.

Thank you,

Employers of EHI Co., Ltd

LTE CAT M.1, BLE Gateway Solution Gateway Solution

Land Transport Authority

Please Tap Here

Efforts for better tomorrow

Compatibility with Android™ devices | Made for iPhone | Compatibility with Windows Phone 8

ESL(Electro Shelf Label) Gateway Solution Gateway Solution

EASY and USEFUL

Compatibility with Android™ devices | Made for iPhone | Compatibility with Windows Phone 8

Gateway Solution is

Gateway Solution is a data collection/utilization solution that identifies the location, status, and basic information of the BLE terminal with a mobile phone that connects the BLE terminal with the Gateway terminal, the server and the user's mobile phone. Through this process, it can be applied to variety of fields such as big data, Internet of Things and others.

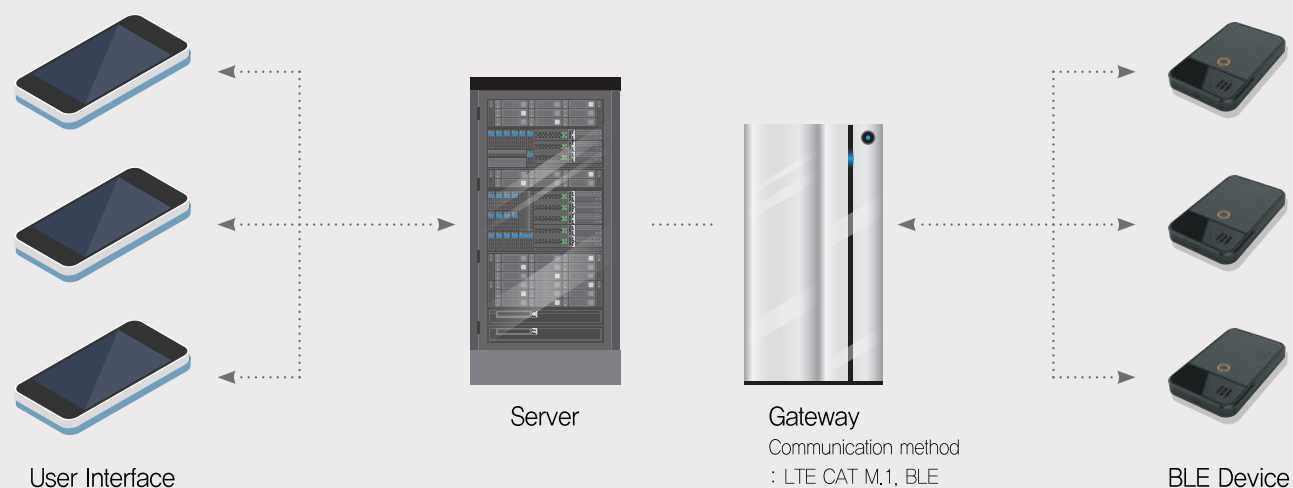

Communication between BLE terminal and LTE CAT M.1

BLE Device access and data using distance can be used for various solutions

Using LTE CAT M.1 on the Gateway, it can be applied anywhere

Can be used for child safety and protection, big data collection and utilization solutions, etc.

System Configuration Diagram

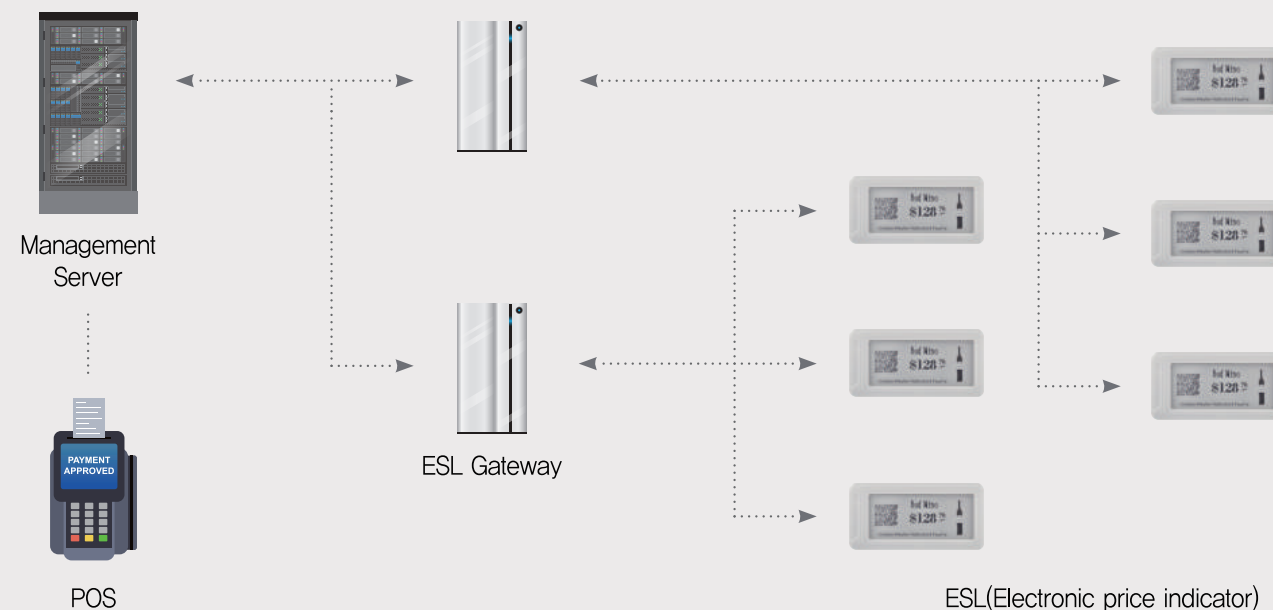

※This product is currently under development.

Solution using BLE and WiFi technology for fast and easy wireless communication

ESL reduces general paper, coating costs, and human required by existing price lists

Using electronic paper (EPD) based display devices with IoT technology, changing the price information on the central server can change the price of products that appear in the electronic price indicator of each product vendor.

System Configuration Diagram
